

Lap-tops are available for check-out at the front counter.

Six multimedia computers are available for public use. **With a current library card and driver's license, you can check-out a laptop for use within the library.** Earphones are provided for your convenience. CD burning and a card reader are available on every laptop. We do not set time limits for computer usage. The internet access is filtered through the Florida Information Resource Network (FIRN). We have high-speed internet access, wireless hotspots and more. Wireless internet access via wireless fidelity, or Wi-Fi is available throughout the library.

The Library assumes no responsibility for the safety of equipment or laptop configurations, security, or data files resulting from connection to the Library's wireless network.

The Library is not responsible for stolen equipment. Please do not leave your laptop unattended in the Library.

General Information for setting up your wireless connection.

Windows 2000, XP & Vista

1. From Control Panel, select "Network and Dial-up Connections" or "Network and Internet Connections > Internet Connections".
2. Right-click on "Wireless Network Connection" or "Local Area Connection" and click properties.
3. Locate the Internet TCP/IP protocol and get into it Properties. If more than one TCP/IP protocol is listed, look for the one associated with your wireless adapter.
4. Select "Obtain an IP address automatically" and "Obtain DNS server address automatically."

Internet Explorer Tips(*Please note that depending on your version of software, there may be variations in the procedures*).

1. From Control Panel, select Internet Options > Connections.
2. If you also have a dial-up connection, it should not be set to "Always dial my default connection."
3. LAN settings should be "Automatically detect settings" and leave the Proxy server settings blank.
